Senior Citizens Enjoy Visit to Drumheller

The Senior Citizens of Drayton Valley were entertained by the senior citizens of Drumheller recently.

The O.O.R.P. ladies provided a lunch under the supervision of Clara Hani-

ford.

Alice DeBoer and Sylvia Horne took the group on a guided tour of the Valley, including a look at the Homestead Museum where the group posed for Big Country

News.

Mrs. Helen Malterer was in charge of the group of senior citizens from Drayton Valley and Mrs. McFarlane was in charge of the group from Drumheller.

Planning Underway for Little Canadian Football

The thirteenth consecutive season of Little Canadian Football will get under way early in September. The program was first organized in the summer of 1960 and has been carried out successfully over the years. Little Canadian Football has always been popular, and has always offered keen competition to the young participants. It has been played and enjoyed by hundreds of boys in Drayton Valley since its inauguration 12 years

ago.

In general, the age grouping for Little Canadian Football is from 11-14 years. Maximum and minimum weight and age limits will come under review and possibly will be changed at the annual meeting next week. It is expected that the minimum age limit will be raised by one year. The U.C.L.A. Index Classification System used for grading the players and the formation of teams will also be reviewed

and evaluated at this meeting.

As in past years it is hoped Drayton Valley will have a three-team Community Little League Canadian Football League. The season will run from late August or early September to mid-October. During this time a maximum number of games will be scheduled. The regular season play will be followed by a playoff to determine the Community Championship.

A preparatory period for the purpose of training and conditioning will precede the regular playing season. This conditioning period will get under way about August 15. Registration for Little Canadian Football is now open and registration forms are on hand at the Recreation Office; open from 8:00-5:00. Boys interested in this program are asked to register as soon as possible in order that the program may proceed without delay.

Dr. Bennett Leaving For Sherwood Park

Dr. John Bennett will be leaving his general practice at The Towers medical clinic the end of August to set up private practice at Sherwood Park.

Dr. Bennett came to Drayton Valley in April of 1971 to recover from a severe chest crush in England. At that time, he was to succeed Sir Guy Beacham, but could no longer pursue such a career because of loss of strength through his injury.

Born in Yorkshire, England, Dr. Bennett quit school at the age of 14 to make a humble beginning as a blacksmith. Through a keen sports interest, he boxed his way to national champion, and received his black belt in Judo.

He entered standard springboard diving competitions, and probably because of his activities, became interested in the treatment of injuries and physical medicine.

He trained and graduated from the Swedish Massage and Electrical Institute in 1949 and worked in London with an eminent physical medicine consultant.

Dr. Bennett spent a number of years in East Africa as physiotherapist in King George Hospital, Nairobi. In 1959, he took the position of physiotherapist at Cowley Hospital, Oxford, and a year later was awarded the Superintendent of the Rehabilitation Unit position at Riverside Hospital, Oxford.

During that time, Dr. Bennett performed perhaps the first successful closed chest cardiac resuscitation in the country.

Because of his thirst for knowledge, he went on to obtain his BA in physiology in 1964 and was offered a place in Oxford Clinical Medical School. In July, 1965 he graduated with degrees MA, BM, and BCh.

He notes with some irony that he ended up in Harley Street (perhaps the most famous medical colony in the world) twice--once before he began his medical career during his humble beginnings, and during his career with Sir Guy Beacham.

Bantams End Ball Season

M&R Trucking Bantams completed the 1972 baseball season with an 8-4 win against Stony Plain; however, they lost the first game 9-5. Kevin Boulter pitched an excellent game in a losing cause. Boulter also lead the team at the plate with two hits at bat.

In the second game, Mike Koebernick pitched and hit the team to an 8-4 win. Koebernick pitched a two-hitter and lead the team at the plate with three hits, one being a 300-foot home-run. Neil Wilkes, Don McRae, and Kevin Wilson picked up two hits in the second games.

A special thanks to M&R Trucking for sponsoring the team this year. The boys completed the season on Wednesday night at Lions Park with an exhibition game against Barrhead, one of the four teams in the Northern Zone Finals.

THE WESTERN REVIEW

DRAYTON VALLEY, ALBERTA -- AUGUST 9, 1972

Drayton Now 15th Largest Alberta Town

Population figures as established under the Municipalities Assistance Act, and recently released in The Alberta Municipal Councillor, showed the population of Drayton Valley to be 3,714, placing it as the fifteenth largest town in Alberta.

Drayton Valley is now over twice as large as Stony Plain with its population of 1,686, slightly larger than the fast-growing Spruce Grove with 3,320 residents, and over 700 less than Leduc with 4,476 residents.

Surrounding villages show the following figures: Breton, 447; Entwistle, 329; Evansburg, 535; Seba Beach, 163; and Wildwood, 403.

The County of Parkland, itself, rates as the third largest county in Alberta, with a total population of 11,171.

Elected Baseball Representative

Mike Gourmley, Recreation Director for the Town of Drayton Valley, has been elected the representative for northern Alberta in the Alberta Amateur Football Association.

Awarded the position at the annual coaches' clinic in Red Deer on June 23-25, Mr. Gourmley will act as a liaison between all teams at the minor football level and the Alberta and Canadian Amateur Football Association.

Representing northern Alberta, he will vote on policies pertaining minor football in the province, help set rules and regulations regarding the game, and assist in obtaining federal grants in minor football.

Already he has acquired a \$100 grant from the Canadian Amateur Football Association.

Over 140 coaches attended the clinic in Red Deer, with such speakers as Jack Swarthout of Montana State University, who specialized in the "Wishbone T", Lorne Davies, head coach at Simon Fraser University, and Jim Donlevy, Dan Barry, and Clyde Smith of the University of Alberta.

Mr. Gourmley was elected to the position, after being approached by Ken Munro, previous northern Alberta representative, and now of the Edmonton Huskies, and being accepted by Alberta Amateur Football Association President Dick MacBey.

Science Course

The University of Alberta evening credit course in Physical Science 341 will be offered in Drayton Valley, beginning September 13.

Classes will be held in the H.W. Pickup Junior High School. Deadline for registration is August 14.

Mr. Peter Leong seated before the "Hundred Birds" painting.

New Management At Hotel Cafe

Now known as the "Hundred Birds Restaurant", the Drayton Valley Hotel restaurant previously operated by Ted Lee is under the management of Peter Leong and his staff of about 14.

The restaurant, named after a Chinese painting called "Hundred Birds", was officially transferred to Mr. Leong June 13.

Mr. Leong brought the picture from China, feeling that the painting of the hundred birds gathered together in the early morning, singing happily, could depict his restaurant as a gathering place for many people where he could help make them happy and friendly.

Originally of Canton, China, Mr. Leong came to Canada at the age of 15. Beginning in Edmonton in the grocery store business, he made his way across Canada and the United States doing various jobs.

His restaurant career began at the age of 20. Since then he has worked in such restaurants as the Beachcomber and Blue Willow.

Mr. Leong and his family came to Drayton Valley from Fort Smith, where he managed a similar restaurant.

The Hundred Birds Restaurant now specializes in Chinese and Western cuisine.

New Doctor Joins Tower Clinic

English-born Dr. Anthony Freeman began general practice in association with The Towers Medical Clinic June 26 after spending 5 1/2 years in West Africa.

The 32-year-old doctor of medicine graduated from University College Hospital in London in 1965, taking up surgery at Sterling Hospital in Scotland for two years, orthopedics in South Hampton for five months, surgery at an iron ore mine in West Africa for 2 1/2 years, and surgery at a diamond mine in West Africa for 3 years.

When offered the opportunity in West Africa, Dr. Freeman felt it would be excellent social and medical experience. While at the diamond mine, he and three other doctors has to care for 21,000 patients, seeing between 80 and 390 every morning. He operated three days a week, visiting a second hospital in the 300 square mile area by helicopter.

The Drayton Valley practice offered a completeness that Dr. Freeman had not experienced in West Africa. He felt this position would give him the chance to follow a patient right through,

as well as give stability to his children's education.

Married to Adele in 1966, they now have two children, five-year-old Mark and two-year-old Jacqueline.

As a member of the Royal Ocean Racing Club in England, Dr. Freeman participated in such races as the Fast Net Race and the Channel Race. He doesn't see much opportunity for such sailing here, but hopes to put a dinghy together for a bit of lake sailing.

D.V. Highlights

BY MRS. EDITH DEBY

Miss Louise Boufford had as her guests her sister, Mrs. Le Clair and three children of Surrey, B.C. The electric storms with which we have been plagued gave the children thrills and chills. It seems Surrey does not have such things.

When Michael Gormley takes a holiday he does not plan to stay in one place. This summer's jaunt was no exception. From the White Mountains of New Hampshire to the plains of Saskatchewan are a lot of miles. Michael tells us that the White Mountains are more like hills if you are comparing them to our Rockies, but are still high enough to make ones scalp prickle when the air tram on which one is riding is being hauled up the sheer face of a cliff. On the return trip more memorable experience was provided when Mike's plane passed through a thunder storm.

We are happy to be able to report that Mrs. Dunington is home from hospital.

A warm welcome goes to Mr. and Mrs. Jean Benoit and their five children who will be coming to our town to live. Mr. Benoit has bought the Jack Tyler house. The Benois come from Chauvin.

Kenny Goble, son of Mr. and Mrs. Kevin Goble, will leave soon for a year's stay in Britain and the continent.

Did you see our John Bootsma on TV? John was giving a display of aerial acrobatics at the Edson rodeo. It was a fine view of the plane and its antics but we couldn't see much of Johnnie.

Birnie Smith, son of Mr. and Mrs. Ron Smith, has spent part of his summer holiday with his maternal grandparents, Mr. and Mrs. Knowles, at Fort Saskatchewan.

Miss Pamela Boot, an English librarian and a cousin of Jack Tyler, has spent two of her five and a half week holiday in Drayton Valley.

Mrs. Iris Labatuik and Mrs. Lorraine Skare were district visitors last week. Mrs. Labatuik is the former Iris Martin and Mrs. Skare is the daughter of the late Mr. and Mrs. Andy Denim.

Dr. and Mrs. Latta leave this week for South Africa where they will be for a short

time before going on to their final destination of Australia.

Mr. Stan Ritchie, of New Westminster, is visiting his relatives, the Dunington's, getting a look at infamous Sable Island. This small, sandy strip of land has been called "The graveyard of the Atlantic" because of the number of shipwrecks caused by the surrounding sandbars and winter gales. These dangers have been largely eliminated now by modern warning devices. At present oil crews are working there. Jack Starling and 'Red' Matton are there temporarily while Albert Tink has been transferred. The Tink family have a house in Dartmouth, Nova Scotia, about ninety miles away. Although some workers live on the island most live in Dartmouth and are ferried back and forth by helicopter. Jack says that the shores are lined with seals and he often sees the Sable Island ponies.

The 14th annual Greaves Reunion was held at Moon Lake on Sunday with sixty-eight members of the family and five visitors present. The golf tournament was won by Nick Urchysyn for the men and Beryl Greaves for the women. The horseshoe contest was won by the team of Les Tucker and Vern Lindberg. The young men's race was won by Milton Tucker and Milton won the ball throwing contest against such redoubtable pitchers as Les and Ted Tucker.

Doug Smith and Allister Waugh are still in Australia. For a time they worked on the shrimp boats in Carnarvon. Recently they bought a 1963 T-Bird and toured from Carnarvon to Darwin, a distance of two thousand miles much of it over incredible bad roads. The young men must be enjoying Australia for they have given no indication that they will be coming home soon.

TENNIS TOURNEY

The Drayton Valley Tennis Club will be hosting their annual tennis tournament on August 26. For more information see next week's paper or phone 542-2983, 542-4085, or 542-4512.

W.I. MEMBERS MEET AT LAKE ISLE

The July meeting of the W.I. was held at the Burrows' cottage at Lake Isle. Mrs. Dalheim, Constituency Convenor, and members of the Calihoo Branch were the guests. Plans for the Creative Writing course are being tabled for the present.

Preparations for the flower show are going ahead smoothly. As in other years, special awards are being given as follows: Drayton Valley Hotel, dahlias; Drayton Hardware, gladioli; Hudson's Bay, roses; Reed's Country Garden, pansies; and W.I. grand aggregate for both flowers and vegetables. For the first time, House of Flowers will give a prize for the best arrangement and supply the judge for this class. It is hoped that all growers of flowers, fruits, garden vegetables and grain will keep the date of August 23 in mind. Further notices will appear in this paper.

A report on the organi-

zational work being done by Mrs. Burrows and her committee on Emergency Measures would indicate that all facets of the work are coming along satisfactorily.

While on holiday in Ontario, Mrs. Hammerlind visited the home of Adelaide Hoodless, foundress of the Women's Institute. Mrs. Hoodless's home has been restored with furniture of the period. Mrs. Hammerlind showed pictures and gave a talk. She urged all W.I. members not to miss the opportunity to visit this historic spot when they are in Ontario.

The August meeting will be held in the basement of the Town Hall on August 21 at 8:00. Mrs. Burrows will give a demonstration of corsage making. Members should bring flowers, wire and green paper if possible. Visitors and prospective members are always welcome.

Entwistle News

Jean Tamke, Laura Tufty and Eleanor Oliver attended the O.O.R.P. convention in Calgary on July 23-26. A nice time was had and we enjoyed the convention with all its strenuous details. We met people from all over Canada and found them very interesting. Many thanks to the Lodge for providing the opportunity.

Barbara and Bert Horricks of Tofield visited the Oliver home recently as they were returning from a holiday in Jasper.

Gordon Oliver has gone to Fort MacMurray where he is busy working.

Jerry and Shirley Sullivan and family were away for a few days holiday recently.

Olive Goebel, Maxine Willoughby's mother was out

visiting the Willoughby family for a few days.

Edward and Marlyne Nelson and girls of Claresholm were recent visitors to Entwistle.

The Entwistle Elks Bar-B-Que which was held July 29 proved to have a good turnout and the dance was reported as very good.

Mr. and Mrs. Cecil Cowie and family are away for a holiday.

Football League

Cont. from Page 1

Little Canadian Football is played on a miniature football field, 80 yards long by 40 yards wide. The goal posts are also reduced in height and size and where required the rules are changed to fit those conditions as well as other specific requirements for this level of football.

The annual organizational meeting for Minor Football will be held on Thursday, August 10 at 7:00 P.M. All interested persons are requested to attend this meeting. On the agenda at this meeting plans for the coming season, policies governing the program, coaching and officiating will be reviewed and discussed. Specific items of note for review and possible change are the age limits in the Little Canadian League, change in playing rules, allowing blocking on returning kicks from scrimmage, change in ruling in

regard to convert points and several other items of note in the policy governing the control of Minor Football in Drayton Valley. The Bantam Football situation will also be reviewed at this meeting. It would seem that it will be impossible to play Bantam Football in Drayton Valley on a fully organized basis this year. It would be tremendous if one again Drayton Valley could field a Bantam team; however, problems which cannot be solved right away have arisen!

If the Little Canadian program is to be successful plenty of help in the way of coaching, officiating and general program support is needed by the community.

If you are interested in Minor Football, its program policies, rules and regulations, please plan to attend the meeting next Thursday, August 10 at 7:00 P.M. in the Recreation Office. Your ideas and support are needed.

Warmer Temperatures Increase Hail Activity

The somewhat warmer temperatures during the last part of July brought a sharp increase in hail activity, and it was an extremely busy period for the Alberta Hail Studies Project. Hail occurred somewhere between Edmonton and Calgary on every day between July 22 and 28, and on four of these days the largest hail reported was at least golfball size.

Seeding was carried out on six of these days in the foothills as storms threatened to hit the primary target area between Red Deer and Calgary. The Cessna aircraft flew 12 missions during this period and was supported with 9 flights made by the T-33 jet. A total of 1200 cloud seeding flares were dropped into the developing storms at many locations along the foothills. Most of the storm cells that were seeded died out in the foothills, or shortly after moving out over the farmlands; and the hail was confined to the extreme western edge of the target area. The one exception was the storm that persisted and moved out through Sundre on the evening of July 23, and continued through Olds to the Eltona area in the early hours of Monday.

The very active hail period ended July 28, when two major storms swept through the northern half of the project area between Red Deer and Edmonton. Since no storms were threatening the primary target area on this day, it was possible to do a single storm experiment.

The first storm came in over Buck Lake at 5:00 p.m. and produced a pocket of hail walnut to golfball size in a strip 25 miles long and 4-6 miles wide. The storm was heavily seeded by dropping 94 flares over a period of 25 minutes as it passed south of Pigeon Lake. Apart from a small pocket of walnut size hail, the hail became generally smaller and eventually ended north of Ponoka. Two tornadoes were reported with this storm. One hit briefly west of Buck Lake, ripping the roofs off several buildings and uprooting trees. The second tornado hit at several points along a 15 mile path between Hoadley and Ponoka. Many trees were uprooted and some which were one foot in diameter were twisted right off. Minor damage to some buildings was also

reported.

A second and more severe hailstorm northwest of Camrose area hit at 7:00 p.m. and moved southeast just north of highway 13, eventually dying out near Daysland. A large area 30 miles long and 6 miles wide with hail up to golfball size and occasionally larger caused heavy damage to crops. It was this storm that produced the third tornado of the day at the southern edge of the hail swath along a 6-mile strip near Bawlf where one home was completely demolished. At this time the Penhold radar was detecting the characteristic hook-shaped echo which is commonly associated with tornadoes in the mid-western United States.

No hail occurred over the July 29-30 weekend, providing a much-needed respite for Hail Studies staff, and a chance to catch up on the tabulation of the hundreds of hail reports and precipitation samples collected on the previous week's storm activity.

Ecology and Control of Aquatic Plants

The weed control branch of the Alberta Department of Agriculture is carrying out ecology and aquatic plant control studies under the provincial government's summer temporary employment program (STEP).

Walter Yarish, in charge of the project, reports that one of the studies employing two students, is being carried out on weeds in Kaspasiwin Bay, Lake Wabamun. This area was chosen because it has a heavy weed growth which is interfering with the recreational potential of the lake.

The students are recording the species and the proportion of each species growing in the bay by sampling weeds that have been cut in an area about one mile square. They are also recording environmental data like water temperature to obtain as much information as possible for later use in chemical weed control tests.

Wheat Pool Sells Barley

It has been announced through its Sales Department, that the Alberta Wheat Pool has sold for export, 1.4 million bushels of barley destined for West Coast shipment this fall. The sale consists of two cargoes which will be made up of a mixture of selected lots of the varieties - Galt, Campana, and #1 Feed Betzes.

Alberta Pool is prepared to pay five cents per bushel premium on carloads selected for this purpose within a 200 mile radius of Calgary, excluding irrigated land.

It is important that producers wishing to take advantage of the opportunity this sale provides should allocate acreage in this year's permit book. Fifty acres should be allocated for each carload expected to be consigned.

Parkland Baseball Finals

Although Holborn held down the first spot in the Parkland Major Men's Baseball League throughout most of the season, Brightbank managed to gain an extra win to give them a total of 18 points in nine wins and four losses.

Holborn now stands second with eight wins, three losses and one tie for a total of 17 points in 12 games played.

Easyford, with only nine games played, was able to take third with 15 points in seven wins, one loss, and one tie.

Fourth went to Highvale, who had five wins and six losses for 10 points; fifth to Enoch with four wins and six losses for 8 points; and last spot went to Spruce Grove with 13 losses and no wins.

Best of three semi-finals began Augst 3, with the following games to be played:

Easyford at Brightbank and Highvale at Holborn, August 10 at 7:00 p.m. Finals are scheduled as: August 13, at 2:00 p.m.; August 15, 7:00

p.m.; and August 17 at 7:00 p.m. The team ending highest during league play will be awarded home games one and three.

Census Reveals Livestock Figures

According to the 1971 Census of Agriculture, livestock and poultry are being raised on fewer farms in Canada but there are more of them per farm. In general, the number of farms reporting each class of livestock and poultry has declined faster than has the total number of farms, so that the proportion of farms reporting each class of livestock and poultry has declined from that shown in the 1966 Census. For Canada as a whole the only exceptions to this trend are geese and ducks. There were fewer farms reporting geese in 1971 than in 1966 although the proportion of farms with geese increased. There was an increase in the number of farms reporting ducks.

The numbers of livestock and poultry on census-farms at June 1, 1971 was higher than on census-farms at June 1, 1966 except for sheep which continued to decline. Total cattle in Canada increased by 3.0 per cent from 12.9 million in 1966 to 13.3 million in 1971. At the same time a decline in cows and heifers, 2 years and over, milking or to be milked declined by 15.7 per cent from 2.7 million in 1966 to 2.3 million in 1971. This reduction in the Canadian milking herd was more than offset by an increase of 17.6 per cent in the number of cows and heifers, two years and over, being raised for other purposes, presumably beef. The number of such cows and heifers increased from 3.0 million in 1966 to 3.5 million in 1971. This shift on emphasis from dairy to beef was reported in every province.

The number of cattle reported on feed as of January 1 increased from 1.8 million in 1966 to 2.1 million in 1971, a rise of 16.6 per cent. Increases in every province from Ontario westward more than offset reductions reported in provinces from Quebec eastward. British Columbia was the only province where the number of cattle on feed per farm reporting had a slight decline and this was also the only province where there was an increase in the number of farms involved. Elsewhere the pattern on a province by province basis was one of fewer and larger feeding operations.

The number of cows milked on May 31st declined

in every province from 1966 to 1971, with a reduction in number of cows milked for Canada as a whole of 18.4 per cent from 2.1 million in 1966 to 1.7 million in 1971. At the same time the milk production per cow increased in every province with the Canadian average for that day going up from 32.2 pounds in 1966 to 34.3 pounds per cow in 1971.

The number of pigs on farms at June 1 rose from 5.4 million in 1966 to 8.1 million in 1971, an increase of 49.9 per cent. The number of farms reporting pigs declined from 154 thousand in 1966 to 122 thousand in 1971, a reduction of 20.6 per cent. Thus the average number of pigs per farm reporting pigs has increased from 35 in 1966 to 66 in 1971. An increase in pig numbers was reported in every province. However, the number of farms reporting pigs increased only in Newfoundland and British Columbia. The proportion of farms with pigs declined in Nova Scotia, New Brunswick, Quebec, and Ontario but increased elsewhere.

The number of sheep reported in farms continued to decline between 1966 and 1971 but at a slower rate than in the previous 5 years. In 1971 there were 861 thousand sheep reported, compared with 1.0 million in 1966, a decline of 15.6 per cent. In every province fewer farms reported sheep in 1971 than in 1966 and the proportion of farms reporting sheep declined everywhere except in British Columbia which was also the only province showing a reduction in the average number of sheep per farm reporting them. On a national basis, the average flock size increased from 47 to 61 sheep between 1966 and 1971.

The number of horses on farms in Canada continued to decline between 1966 and 1971 but at a slower rate than in the previous 5 years. In Ontario and British Columbia the number of horses increased. All provinces showed an increase in the number of horses per farm reporting and there was a continued increase in the total number of horses reported on farms in British Columbia. The total number of horses reported on farms in 1971 was 354 thousand compared with 387 thousand

Sun glistens on a nearby stream during one of the rare summer weekends Drayton Valley-ites have experienced this year.

in 1966, a reduction of 8.5 per cent compared with a decline of 24.4 per cent between 1961 and 1966.

The number of hens and chickens reported on farms in Canada rose from 75.6 million in 1966 to 87.5 million in 1971, an increase of 15.7 per cent. This was an acceleration from the 8.7 per cent increase in the previous 5 years. Increased numbers of hens and chickens were reported in all provinces except Saskatchewan and Alberta. The number of farms reporting hens and chickens dropped from 177 thousand in 1966 to 120 thousand in 1971, a reduction of 32.4 per cent. The trend to fewer and larger flocks which was evident from 1961 to 1966 thus continued at a faster rate. Average flock size for Canada in 1971 was 732 birds compared with 428 in 1966 and 262 in 1961.

The number of turkeys

on farms in Canada increased from 9 million in 1966 to 9.5 million in 1971. In the same period the number of farms reporting turkeys declined from 21,309 to 13,414. Increased numbers of turkeys on farms in Nova Scotia, Quebec and British Columbia more than offset declines in other provinces. No farms in Newfoundland reported turkeys in 1971 although 13 farms did so in 1966. The average flock size for farms reporting turkeys in Canada increased from 421 in 1966 to 711 in 1971.

There were 417 thousand geese reported by 14,021 farmers in 1971 compared with 340 thousand geese on 15,922 farms in 1966. The number of geese on farms continued to decline. There were fewer geese in 1971 than in 1966 in Prince Edward Island, Quebec, Alberta and British Columbia. The average flock size increased

in every province except in British Columbia where the number of farms reporting geese increased from 803 in 1966 to 940 in 1971, reversing and more than offsetting the decline in number of farms reporting geese in that province which took place between 1961 and 1966.

The number of ducks reported on farms in Canada rose from 410 thousand in 1966 to 554 thousand in 1971, an increase of 35.1 per cent, compared with an increase in the number of farms reporting ducks from 18,358 in 1966 to 19,376 in 1971. An increase in duck numbers was reported in all provinces except Newfoundland and Prince Edward Island. Average flock size increased in every province.

Data on mink and rabbits were not collected separately in the Censuses of 1961 or 1966. In 1971, there were 1,402,028 mink reported on 665 farms. At the same time 9,936 farms reported 235,368 rabbits on farms in Canada.

Detailed data on livestock and poultry reported in the 1971 Census of Agriculture are presented for census divisions and provinces in publication number 96-719. This publication is available from Publications Distribution, Statistics Canada, Ottawa and also from Publications Division, Information Canada, Ottawa.

LEGISLATIVE REPORT

By
KEVIN PETERSON

A tax plan on Alberta crude oil that offers a choice between increased royalties and a reserve tax and promises to subsidize 30% of the costs of new wildcat wells has been imposed by the provincial government.

Climaxing more than four months of debate in the first review of oil revenues since 1962, the announcement by Mines and Minerals Minister Bill Dickie promised new tax provision would raise \$70 million in 1973.

That total is the equivalent of a 2 1/2% general sales tax or a 1/3 increase in personal taxes received by the province.

While the Lougheed administration offered no estimate of how much it expected the drilling incentive scheme to cost, Mr. Dickie said 251 wells would have qualified in 1971. The incentive should raise this total to 400 next year, Mr. Dickie said.

Sources indicate the drilling subsidy--based on a complicated formula that gives companies a tax credit of 30% for wells of all depths and average cost--will eat up \$10-15 million of the \$70 million added revenue.

The final decision attempts to balance a number of factors, the announcement said: "If the amount established at too high a figure it could have a detrimental effect on job opportunities for Albertans as the investment in this industry is a matter of comparative attraction with other oil activity areas in Canada and in fact throughout the world."

"On the other hand, if the amount was established at too low a rate of return having regard to existing and future anticipated high production, seller's market conditions."

Under the plan, operators must choose by the end of this year whether they will pay a tax based on the value of their crude oil reserves they will open their lease agreements to allow for a higher royalty scale averaging 21% instead of the present 16 2/3% maximum.

All new leases and renewals will not be given an option but will be forced to take the higher royalty. This means the use of the reserve tax will gradually fade until it applies only to freehold areas where the landowner collects the royalty, not the provincial government.

The drilling incentive scheme is significantly altered from the proposal first put forward in April. Then the province offered a tax holiday from royalties and the new tax to successful new wildcat wells.

But industry representations at May public hearings added the tax credit for all wells--whether dry or successful--as well as giving successful holes the royalty break.

Reeve's Report

By Les Miller, Reeve,
County of Parkland

The month of July was a very busy but routine month, with the Public Works programs in the forefront. Rainy weather has caused some delays, but the Public Works program is fairly well on schedule except for the contract work which is behind. The Drayton Valley Airport project is now completed and all our equipment is at our own work.

I was interested in Mr. Zander's letter in The Western Review indicating how I should have written my last report and what I should have said. It was a masterful play with partial figures and made interesting reading. How Division 5 got dragged in I don't know since only a handful of the petitioners were from Division 5. However, all I was doing in my report was presenting facts on what has been done in the western area, indicating that I felt this area has not been neglected and certainly has been treated the same as any other part of the County. We now have a letter from the Minister indicating there will be no change at present and that there may be a Provincial Boundaries Commission to look at all boundaries. He indicated that no action will be taken without our Council's prior knowledge. And Council will certainly keep you, the ratepayers, informed. Council will be operating on the premise that our County will not change, and we trust all the ratepayers will now do the same. To function well, a local government must have the support of all the ratepayers whom we represent and the help and support of our M.L.A.s is also imperative.

I would sincerely ask everyone to start working together again to make this the Number 1 county in the province. We have the potential to be just that, and to that end Lodgepole and Winterburn are equally important, as all points are between. Again I would reiterate, if you have complaints or suggestions, submit them directly to Council where I assure you they will be fairly considered.

Tax notices are finally in the mail. We are again able to hold our mill rate despite rising costs. The mill rate will again be 66, broken down, as follows: School Foundation, 29; Supplementary School Requisitions, 4; Municipal, 26.40; Health Unit, 1.00; Hospital, 1.40; Recreation (Capital) 1.00; Regional Recreation Council, 1.50; Debenture and Miscellaneous, 1.70.

We apologize for the lateness of these notices. The major delay was in programming and problems in programming our machine. I would also remind you of the penalty date which is October 1st.

We were pleased to receive a very favorable Municipal Inspectors' Report again this year.

I am pleased to report that Mr. Alvin Myhre has

been appointed Superintendent of Schools effective January 1, 1973. He will take over on the retirement of present Superintendent, Mr. M.M. Holman. Mr. Myhre has been one of our Assistant Superintendents the past year and we feel will continue to provide the strong and capable leadership shown by Mr. Holman.

Staffing of the schools is nearly completed for the next year and we feel we will have a very competent teaching staff. Space will likely be a problem again especially at Spruce Grove and Stony Plain. The redesign and re-tendering of the Brookwood School in Spruce Grove resulted in much more favorable price and this contract has now been awarded. However, it doesn't solve any September problems.

A slight adjustment of attendance boundaries in the Stony Plain and Spruce Grove areas is being considered. However, no action will be taken until a survey is completed and a public meeting held, to determine the feelings of the people concerned.

Respectfully,
Les Miller

OUTDOOR ARTS AND CRAFTS CAMP

About 125 adults and children attended the Outdoor Arts and Crafts Camp sponsored by Parkland Regional Recreation July 24-28 at the Pembina Provincial Park.

What is the Arts and Crafts Camp? It is basically an exposure to the various crafts that will be offered in Parkland during the winter months. For one week families camp out and partake in the activities of their choice. Activities offered included pre-school activities, children's crafts, macrame, primitive pottery, photography, painting, leather, fishing, basketry, nature crafts, and a nature walk. Each craft was given by qualified instructors, and there was an evening campfire or films each night.

PARKLAND NOTEBOOK

Has your summer been a success? If it has, top it off with a canoe trip on the Chickakoo Lakes. If it hasn't this may be your last op-

portunity to do something exciting.

Dates are August 20-24. Boys and girls 12 years and older having a Junior Red Cross Swim Certificate register now. The cost is \$10 for four days of outdoor living.

For further information drop in at the Parkland Regional Recreation Office or call 777-2211.

HAYRIDE, HAYRIDE, everybody loves a hayride! That was the special event for the Spruce Grove Playgrounds July 28, after an hour and half ride at Slim's Riding Ranch, everyone dug into wieners and buns and marshmallows. A peanut scramble finished off the day. Special thanks to the parents who volunteered the transportation.

Suffocation fatalities took the lives of 549 persons of which 253 or 46% were among infants, generally due to re-gurgitation of food or smothering in beds or cradles.

Fallis News

Brian Berry, Gary Beaumont, Reg Bruce, and Russell Orchison spent a weekend at Calgary and Banff. While in Calgary, they took in the Stampede.

Mr. and Mrs. E. Miller and their grandson, Leonard Berry, arrived home from holidays in B.C. and Peace River.

Bonnie Magerison, Darlene Yates, Wendy Gunther, and Cory Escallier of the Voyageur Student Exchange (from Seba Beach) arrived home July 15. The Voyageurs hosted a group of Young Voyageurs from Ontario July 24-August 2.

Mrs. Margaret Hancock of Wabamun was the winner of the bonus jackpot in the Fallis hall June 23. Don't forget the next bingo with a regular jackpot besides the bonus.

Mrs. Betty McDonald and grandson Jack Koflick spent some time at Miette Hot Springs with Betty's daughter and family, Ken and Jan Williams of St. Albert. They later attended the Calgary Stampede.

Mr. and Mrs. Bob Starko and family of St. Albert recently visited their cottage in White Wood Sands Beach.

Mr. and Mrs. McCulloch and Penny motored to Sanguendo recently to visit friends. They have their daughter and family of Winnipeg staying with them for a few weeks. On Saturday, Linda and Laurie Magerison visited the McCullochs; also, Mr. Smith of Edmonton visited for the weekend.

Mr. and Mrs. Jim Orchison and daughter Paula travelled the Yellowhead to Surrey and Rutland to visit relatives and returned by the Rodgers Pass on their holidays.

Mr. and Mrs. Roy Bradley visited friends in the district on their way from Edmonton.

Mr. and Mrs. Mashtaler had their daughter Stella and family visit for a week.

UNITED CHURCH WEDDING SCENE

A very pretty wedding was solemnized in the Drayton Valley United Church at 6:00 P.M. Friday, July 21, when Debby Lynn, daughter of Mr. and Mrs. Richard Mohr of Drayton Valley, and Fred George, son of Mr. and Mrs. George Tuftin of Stanger, were united in marriage. Reverend Cowie of Entwistle Community Church officiated, with Mrs. Cowie on the organ.

The bride came down the

aisle on the arm of her father and was wearing a floor length gown of white lace over satin with a short train. Her veil was shoulder length and she carried a bouquet of red roses with cascades of rose buds.

Miss Darlene Urchyshyn, friend of the bride, was Maid of Honor. Miss Christine Tuftin, sister of the groom, and Miss Annie Thyor, friend of the bride, were bridesmaids. All wore floor-length gowns of turquoise peau de soie, with empire waistlines, and carried bouquets of yellow roses. Their jewellery, chain necklaces with a cross, were gifts from the bride.

The two flower girls were Miss Lorelei Mohr and Miss Denise Mohr, sisters of the bride. They wore floor length vet bows at the empire waistlines, and streamers to the hemline. Their bouquets of red roses were minatures of the bride's bouquet. Around their necks they wore gold

lockets, gifts from the bride.

The groom was attended by his brother, Tom Tuftin, Douglas Barr, and Mike Wallen, friends of the groom. The ushers were Clyde Resler, uncle of the bride, and John Walker, friend of the groom.

The bride's mother chose a white ensemble with colored braid trim and white accessories. She wore a corsage of red roses. The groom's mother wore a rose colored dress with matching coat, and a corsage of yellow roses.

A reception for 190 guests was held in the Elks Hall in Drayton Valley, with Lou Matlock as Master of Ceremonies. The toast to the bride was given by Horace Chipchase, an uncle of the bride.

A dance followed the reception, after which the couple left for a two-week honeymoon through B.C. and parts of the United States. On their return they will reside in Drayton Valley.

Out of town guests were from Sanguendo, Edson, Jasper, Edmonton and Fort Saskatchewan.

INFORMATION SUPPLIED BY FOREST SERVICE LODGEPOLE

Natural Attractant May Help Mosquito Control

A new chemical synthesized at the Agriculture Canada Research Institute at London, Ont., may hold promise in controlling the mosquito that spreads western encephalitis or sleeping sickness in North America. The compound is a copy of a chemical attractant called a pheromone.

Since the female mosquito is drawn to lay her eggs in water containing the pheromone, it is possible that selected breeding pools could be treated with high enough concentrations of the chemical to attract the females and drown them as they attempt to land. Or, they could possibly be attracted to pools which will dry up before the larvae can develop.

The difference between "She's good-looking" and "She's looking good" is about 20 years and 40 pounds.

Michaelis - Elliott Wed In Drayton

On July 22, a wedding took place in Drayton Valley United Church with Rev. Irving officiating.

Miss Donna Elliott, daughter of Mr. and Mrs. Henry Elliott of Drayton Valley, married Marv Michaelis, son of Mr. and Mrs. Helmer Michaelis of Lethbridge.

Bridesmaids were Wendy Fagervold of Lodgepole and Donna Stone of Edson, with the groom's brother, Norm Michaelis, and Jergen Wool-lager as groomsmen and Daryl Elliott, brother of the bride, and Bert Michaelis, brother of the groom, as ushers.

The bride wore a white lace dress with tiers and trains, and carried red roses for her bouquet. Bridesmaids wore blue empire-waist peau de soie gowns trimmed with lace and with bell sleeves. Their white hats were trimmed with blue flowers and they carried bouquets of white carnations trimmed with blue ribbon.

The bride's mother chose a paisley mauve dress with overjacket to match and black accessories. Mother of the groom wore a navy blue dress with red accessories.

A reception followed with Gunter Schmidt as Master of Ceremonies. Danny MacDonald gave the toast to the bride.

A sister of the bride, Mrs. Lavonne Warner, came from London, England for the occasion. Other relatives were from Dewberry, Grande Centre, Meadow Lake, Saskatchewan, Valleyview, Rocky Mountain House, Victoria, Vancouver, Lloydmin-

ster, Edmonton, Calgary and many local areas.

To make sure the wedding was a real success, some of Marv's friends kidnapped the bride to see how long it would be before Marv would miss her.

The couple will make their

home in Vulcan where Marv is employed by the Treasury Branch.

FAMILY REUNION

The Henry Elliott home was the scene of a family reunion when about 65 relatives attended a wedding reception for Lavonne Elliott and Ian Warner of London, England. The couple are residing in England.

Tomahawk News

Marvin Reich, son of Mr. and Mrs. Rudolph Reich of Tomahawk, and Joy Schadeck, daughter of Mr. and Mrs. Gus Schadeck of Edmonton, exchanged marriage vows July 28.

About 40 children, aged 2 1/2 years to 13 years, enjoyed Vacation Bible School July 31-August 4.

They were divided into four groups, pre-teen, junior, primary, and pre-primary. Teachers were Rev. Mohr, Evelyn Lukaniuk, Ma-

rie Schoepp, Polly Dunbar, and Bev Ward. Helpers were Val Ward, Vincent Welk, and Brian Lukaniuk. The closing program was held in the Lutheran Church Friday evening. After the program refreshments were served in the basement. Thanks to the Recreation Board for use of the building, Henry Pischke for moving tables and chairs, mothers for cookies and Ladies Aid for refreshments.

Tomahawk is planning a Playschool this fall for

children ages four and five. Anyone having children of this age and interested in sending their children to the school are urged to phone Gloria Jouan at 339-2352.

Angie and Bill Malka and children left July 27 for Watson, Saskatchewan to attend Angie's niece's wedding. They arrived home the following Thursday.

A reminder that Mrs. Combs' 80th birthday party will be held August 20 at the Devon United Church 2-7 p.m. Everyone welcome.

The Parkland Recreation bus will once again be in Tomahawk. Dates are set for August 21 and 22. It will be at the Recreation Centre, weather permitting, for everyone from 2 to 72 years old.

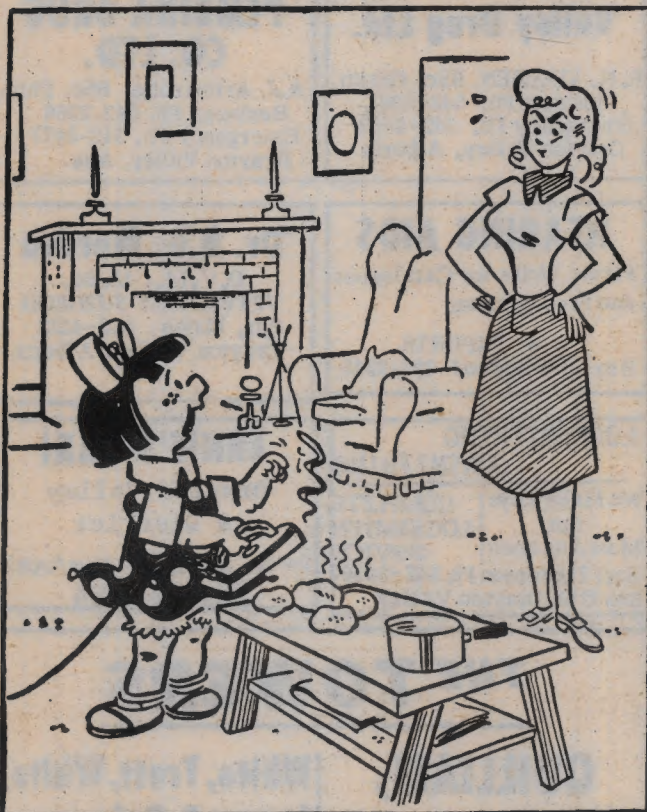

The Tomahawk Ladies' ball team went to Wetaskiwin July 30 to play in the Provincials. They lost to Wetaskiwin and Marwayne. Wetaskiwin invited all ball players to a cold supper at a nearby picnic site.

Three out of every 100 children born are mentally retarded to some degree.

Drayton Valley Summer Hockey School members stage an impromptu scrimmage during an afternoon practice last week.

NOTICE The Alberta Labour Act Review

It is the objective of the Government of the Province of Alberta to develop in consultation with all segments of the public; a Bill to establish a new Labour Act which will provide a meaningful framework of practical legislative provisions that will contribute to and assist in the development of industrial relations in the Province. A re-examination of the existing legislation is considered necessary at this time in the light of changing conditions, concepts and attitudes which affect all persons in the Province.

Interested parties or their representatives are invited to file with my office by September 11, 1972, six copies of their written submissions. Following consideration of the written submissions, Public Hearings will be convened in Edmonton in order that the public may have the opportunity to engage in a further interchange of viewpoints on this important matter.

Hon. Dr. A. E. Hohol,
Minister of Manpower and Labour,
Room 423, Legislative Building,
EDMONTON, Alberta.

She leaves to mourn her loss one daughter and three sons, Mrs. Lucy Hanson of Burtonsburg, Joseph and Stanley and Waide of Edmonton.

Mr. and Mrs. H.D. Roberts visited with their parents Mr. and Mrs. D.M. Roberts on the weekend.

Grand Trunk School Progresses On Schedule

The Yellowhead School Division has received a report from Wood and Gardner, Architects, Ltd. that work on the Grand Trunk High School at Evansburg is progressing on schedule. Further work has been completed as follows:

In the past two weeks the above project has progressed to the point where the suspended ceiling grid system is approximately 75% completed. The erection of steel studs is approximately 90% completed and the vinyl wallboard is about 15% completed to date.

The drywall contractor has indicated plans to increase his work force substantially to speed up the completion of wallboard applications. The General Contractor is now preparing the sub-grade of the concrete floor which is scheduled for pouring in the latter part of the week of July 31.

The General Contractor has commenced the exterior rough grading and will be starting to form the concrete walks. The roofing operations are completed with exception of flashing installation which is scheduled for completion during the week of July 31.

The Electrical and Mechanical Contractors are keeping up with the pace of the project.

Breeding Oats Still Important

While oat production has declined in recent years, it still has a place in on-farm feeding according to a scientist at the Agriculture Canada Research Station at Melfort, Saskatchewan.

Larger seed and increased yields would also boost the economic competition of oats with barley.

Gainford News

Mr. and Mrs. Walt Dumont and Danton of Maidstone, Saskatchewan, are visiting with Gina's uncle, Jim Brown and family, and the McLachlans and Forbes.

Dan Lenz flew home after a visit with his grandparents in Winnipeg.

Don and Pat Schroeder left Gainford last weekend to make their home in B.C.

Bible classes have been held in the Hall since July

24. Parents were invited to attend the services July 31.

Marcy Miller has been attending Camp at Ross Haven. The Strachans and Millars went over on Sunday and enjoyed the services and entertainment. Marcy enjoyed her stay so much that she is going back for another week.

Mr. and Mrs. Joe Wdley of Gibbons and their three children visited in Gainford Friday. Joe was well-known in Gainford a few years ago when he relieved the local C.N. pumpman.

Mr. and Mrs. Rudolf and Luise Baureiss of Graz, Austria are visiting with their son Hermann and Edith of Gainford for 5 weeks. While here they plan to make a trip to Victoria via the Yellowhead route returning by Calgary and the Bad Lands. Accompanying the two Baureiss families will be Alios and Hilda Motch of Edmonton.

Some excitement was caused at the Hebert Beach when the wind carried two seven and eight year old girls to the middle of the lake. They were wearing life jackets and didn't panic. However the men had motor trouble and by the time they reached the canoe a 14-year-old had made the long swim and had things under control.

Mack and Arlene Lyle of St. Albert returned from hospital on Monday, and the children went back to town to help with the household chores until their parents are able to get around again.

Wine Research

Scientists at the Agriculture Canada Research Station at Summerland, B.C., have standardized a method of wine making.

This method allows scientists to judge the quality of new varieties in commercial orchards and those which originate on the station.

THANK YOU

A very special thank you to our dear children who put on a barbeque in honor of our 25th anniversary. Also to Mrs. Eunice Pryor for the lovely cake, to Everett Pryor for a job well done at barbecuing the beef, and to the community friends and relatives for the purse, gifts, cards and guest book. Thanks to all who helped to make it such a memorable occasion.
Albert and Winnie Martin

IN MEMORIAM

MATLOCK, M.C. - In loving memory of our father who passed away August 7, 1967. Along the road of yesterday, That leads us straight to you, Are memories of the happy days Together we once knew. Tho' your smile has gone forever, And your hand we cannot touch, We have so many memories Of you, Dad, we loved so much.
Ever remembered by son Louis and Dot.

New Program at Grant MacEwan

The Canadian Studies Department at Grant MacEwan Community College is starting a new two-year post-secondary Diploma program in September, 1972.

The program is designed for both the student seeking a career program and the student seeking a general knowledge of the nation and its people.

An interesting feature of the new program is the plan to have students learn by direct experience. Throughout the program there are requirements for students to be actively involved in the Canadian community. Often this will require some travel and residence away from Edmonton. The College is

presently negotiating with the Federal Secretary of State Department and various private concerns for assistance in sending students to reside in various sections of Canada such as Quebec. Travel and residence requirements may take up to a complete trimester of 3 1/2 months.

There are three areas of specialization, Ethnic-culture-language studies, economic-geographic development, and politics and history. Within each of these specializations are courses designed to make the student employable on graduation. Such courses included Museumology, Tourism, Ethnic - Culture foundations, Government Task Forces, Public Administration within to culture and language programs in school systems and

with certain associations.

Of particular concern is the projected studies of W. Canada and the Canadian North. As well, there will be courses in culture, anthropology, archaeology, Fr. Canada, the Indian Culture and Language, the Canadian Novel, and Canadian Politics.

Languages are the key area of this program and students have the option of selecting a language from among French, Cree, Ukrainian, German, Swedish.

Admission requirements are an Alberta High School Diploma or age 18 and have been out of school for one year. Information is available from John Hart through the College Admissions office, Box 1796, Edmonton, Alberta.
